+91-7745879766

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in software testing, debugging, REST APIs, and web application development. Skilled in manual testing, functional testing, regression testing, test case design, API validation, and defect identification.

EDUCATION

Dr. D. Y. Patil School of Science and Technology

BTech, Computer Science and Design

2027

Pune

Sr.No.	Qualification	Board/University	Score
1	10 th Standard	CBSE Board	74%
2	12 th Standard	State Board	78%
3	B.Tech (Pursuing) 1 st Year 2 nd Year 3 rd year	Dr D.Y Patil School of Science and Technology	9.1 CGPA 9.45 CGPA 9.4 CGPA

Experience

Full Stack Development Intern

DevAcademix — Remote

Sep 2025 – Nov 2025

- Developed, tested, and validated frontend and backend features to ensure application functionality and reliability.
- Collaborated with developers to identify, debug, and resolve software issues during development and deployment.
- Assisted in testing, database validation, and deployment activities to support stable software releases.
- Improved user experience by identifying UI issues and validating implemented fixes.

GRN Properties — Real Estate Marketplace & CRM Platform

Freelance Project | Solo Developer | Next.js, Firebase, Firestore

Aug 2026 – Sep 2026

- Performed functional, regression, UI, authentication, and end-to-end testing across customer and admin workflows.
- Tested property listings, enquiries, site visits, role-based access, and form validations, identifying and resolving defects.
- Validated Firebase Authentication, Firestore data, security rules, and API/database workflows to ensure reliable application behavior.
- Independently handled test planning, defect debugging, retesting, and production validation before deployment.

Skills & Interests

- Programming:** Python, JavaScript, SQL
- CS Fundamentals:** OOP, Data Structures & Algorithms, Problem Solving
- Test Automation:** Python, pytest, Automated Test Cases, API Test Automation
- Software Testing:** Smoke Testing, Manual testing, Functional Testing, Test case Design, Bug Reporting, Regression testing
- Web Technologies:** HTML5, CSS3, React, Node.js, Express.js, REST API's
- AI/GenAI:** OpenAI API, LLMs, Prompt Engineering, Ollama, AI-assisted Test Generation
- Tools:** Git, GitHub, VS Code, JIRA (Basic), Postman
- Concepts:** SDLC, Debugging, API Validation, Agile Basics
- Leadership & Management:** Student Council Member; Vice President of Developers Club
- Achievements:** Internal Winner – Smart India Hackathon 2025

Projects

AI-Powered Satellite Tracking Dashboard (Sat-LM) [Github](#)

(React, Vite, Node.js, Express, satellite.js, Ollama)

- Debugged frontend and backend issues, verified application workflows, and validated data accuracy across different user interactions.
- Built and integrated REST APIs for fetching, processing, and caching satellite data to ensure reliable application performance.
- Verified application workflows, validated API responses, and debugged frontend and backend issues to improve application reliability.

Certifications

- Introduction to Generative AI:** Google Cloud, 2025
- TATA Crucible Campus Quiz 2025:** Tata Group, 2025
